Close Contest in the Rifle Practice Sesson Between Local Companies—Figures of Merit are 105 and 102.

The rifle practice season of the organizations of the Connecticut National guard closed with the first of October, and since then the commanders of the several companies have been making up their rifle practice reports to be forwarded to the captain of the ordnance department and then to the adjutant general of the state. There is always much interest among the company members to learn which heads the list in figure of merit and in Pr. Hector Lamont 198, Pr. A. Goyette ers of the several companies have been making up their rifle practice reports to be forwarded to the captain of the ordnance department and then to the adjutant general of the state. There is always much interest among the company members to learn which heads the list in figure of merit and in the Coast Artillery corps there is unusual interest because of the bronze shield which is awarded to the company having the highest figure.

For the past few years the shield has sone to the Fifth company, Captain Tarbox, of this city, and it is probable that they will retain it, as their figure of merit this year is much higher than last and is the best in this part of the state, it is believed. There has been much competition between the two local companies and their finish is only three points apart. As the four companies in this part of the state takes.

Almost daily additions are made to The Bulletin's Free Academy building fund, which will be used in paying for the new building and keeping the institution from crippling its big work by being obliged. Discontent is almost universal and the revolt against corruption and misrule runs high. Men are suffering from these conditions in politics and indus-try are forcing men to think. And, strange as it may seem, the old lead-ers, the old idols, of the republican ness with him. I noticed the train crew at work in front of the unoccu-pied car and all of a sudden saw the stitution from crippling its big work by being obliged to spend part of its invested funds, the income from which keeps the school going.

On Friday Mrs. Leonard Woolsey Bacon contributed \$25 with these words. "It is a pleasure to give this little. I regret it is not more."
